Remote Live Viewing

VentraCloud Video TeleMatics

VentraCloud Advantage

- NO LONG TERM CONTRACT (6-month subscription)
- No minimum vehicle requirement
- Flexible subscription – selected vehicles or entire fleet
- Service can be added anytime
- Affordable and convenient

KNOW WHO, WHAT, WHERE & HOW

VentraCloud Video TeleMatics provides real-time insight to significantly enhance visibility regardless of type of vehicle or industry. Whether its for logistics or delivery companies to monitor personnel / cargo access, theft, pilferage, space utilization...or for bus and transit providers to record ridership and incident documentation. VentraCloud increases security while improving operational efficiency and revenue opportunities.

Benefits

- Get real time event video, snapshot and map upload when incidents occur for faster documentation
- Complete view - road, driver, sides or interior
- Conveniently view and download stored video footage remotely via the cloud
- Reduce risk and improve safety
- Get full insight of driver behavior, ridership, personnel and cargo in transit
- Video verification of cargo and trailer condition
- Increase revenue opportunities by maximizing vehicle, asset and space utilization
- Reduce data silos, improve communication and service
