

Connect Ventra VDR-760 Camera to Ventra Config App

Download the app from Google or Apple

Link

<https://apps.apple.com/us/app/ventra-config/id1517738504>

https://play.google.com/store/apps/details?id=com.brucelo543.ventra&hl=en_US

Steps

1. Ensure the Ventra VDR760 system is powered on
2. On the smart phone (iPhone or Android) , go to WiFi settings menu
3. Find VG07xxxxx WiFi name (may take a couple seconds to show up, scroll down if don't see it)
4. Connect to VG07xxxx WiFi
5. Enter Default PW: 12345678
6. Open up VDR Config App
7. Select Live View to see camera 1 and camera 2

From the App, user can do

- View camera video
- Playback videos from SD card
- Download video clips to smartphone
