

Eliminate Blind Spot + Increase Security + Peace of Mind

Protect yourself and your drivers

Ventra delivers the optimal vision enhancement system to address blind spots, side and rear view challenges.

Intelligent camera viewing system with built-in video recording function significantly enhances visibility and security with auto recording of all 4 HD cameras simultaneously, regardless which camera is displayed on the screen.

Automatic loop recording ensures system is always recording, never having to worry about SD card storage capacity. System automatically deletes the oldest video files.

Video playback directly in LCD monitor provides quick and convenient instant access.
